

4 March 1983
MLD-3011

MEMORANDUM FOR: Director, FBIS

FROM: Chief, London Bureau

THROUGH: Chief, Operations Group

SUBJECT: Monthly Report -- London Bureau -- February 1983

I. GENERAL

The national strike of water workers, which lasted a little over four weeks, was settled during the month. Another national strike, that of the coal miners, now looms on the horizon, not over pay but over pit closures. The next several months look to be filled with prospects of strikes in several significant sectors of the economy as labor contracts come up for renewal.

✓ At Caversham major attention was devoted to getting the Soviet pressfax operation into what has now become a settled routine. Our pressfax operators delivered to PMU evening shift editors an average 64 pages daily (not counting Sundays) of Soviet material. Several minor changes in the layout of the equipment and modifications dictated by operational experience were made, an air conditioner and additional lighting installed in the darkroom, and best of all, we think, an automatic recording system engineered to handle the recordings off the air. Designed by our engineer [redacted] the device detects the transmitter's starting "blip," automatically starts the first of a pair of recorders, switches to the second recorder when the reel on the first has recorded four pages of copy, and rewinds the reel on each recorder at the completion of each load. Loss of signal owing to human error has thus been eliminated and our operators can cease performing as human switches.

STAT

As of month's end work had not yet started on the cable trench from the ROSET antenna to the cubicles building, due to begin 21 February. A new start date of 7 March has been given. Weather and logistics problems were cited as reasons for the delay but the completion date is not expected to be significantly affected.

II. OPERATIONS

A. Editorial/Monitorial

1. The conjunction of two media phenomena--the Palestine National Council (PNC) meeting in Algiers 14-24 February and the Sudanese-Libyan-Egyptian imbroglio beginning on 17 February--placed an unusually heavy burden on the BBC's Arabic team and on bureau editors, who filed quantities of high-precedence service messages as well as substantive material. Backstopping the MIDDLE EAST NEWS AGENCY for Nicosia and Jordan bureaus during an extended period of poor evening reception also became a way of life, adding to the illusion that Caversham had become a latter-day successor to Medburo.

STAT

B. Technical

1. As reported in bureau messages during the month the weak link in the equipment chain for the pressfax operation is the RAPICOM interface device, for which quick service from the manufacturer will be difficult and for which we have no backup device at the moment. This weakness will disappear with the second generation of equipment.
2. We have designed and are now building a printed circuit board that will permit two-transmitter operation of the FACIT equipment that will shortly be installed in our relay room to replace the DSTE equipment. This design and the design for the switching device mentioned in the "general" section of this report will be submitted for suggestion awards in due course.
